SUMMARY

I'm an exuberant person who is quite interested in coding and new technologies. I'm a 5 star coder on hackerrank and have pretty number of submissions on leetcode and other platforms also. I'm a person with an optimistic and efficient approach indulged with problem solving and great communication skills. I'm also an enthusiastic and quick learner.
This personality of mine helps me in accelerating my progress in several domains.

PROJECTS

Fresher's Up - The Best Program for guidance of freshers
Currently working on this project which is based on web development.
· A web application to help the freshers choose right career path and guide them through it using roadmaps and blogs.
